

### **SMBI Vehicle Ferry Walk on Passengers**

Walk on passengers are required to wait until all vehicle movements are completed and crew have directed you to embark/disembark the vessel. Fares/tickets should be taken by the deckhand prior to loading the walk on passengers.

Please ensure you inform the crew of your destination as vessel may not be stopping at all islands. Push bikes will be carried at no further cost. Dogs must be on a leash and controlled at all times.

### **SMBI Carriage of Walk on Freight**

All freight transported on ferries is at the owner's risk and Stradbroke Ferries takes no responsibility for loss or damage.

Freight quantities are limited. Stradbroke Ferries reserves the right to refuse the carriage of any freight items when designated freight area is full, and/or the safety and comfort of passengers or crew could be at risk.

### **THE CARRIAGE OF FREIGHT WILL ALWAYS BE AT THE MASTER OF THE VESSEL'S DISCRETION.**

Stradbroke Ferries is a vehicle ferry service. Please contact your local transport operator for large freight/furniture deliveries.

**Powered Mobility Device Carriage Policy**

To be eligible for walk on fare travel the mobility device must meet the following criteria:

- Have a maximum height of 140cm
- Have a maximum width of 75cm when measured at a height of up to 30 cm from the ground
- Fit within the allocated space of 130cm by 80 cm
- Turn 180 degrees within the allocated area of 207cm by 154 cm
- Cross a gap of up to 4cm wide
- Climb a 1:14 Grade unassisted
- Climb a 1:4 Grade with assistance
- Have a braking system capable of maintaining the position of the mobility device on acceleration and deceleration of the vessel
- Allow transfer to a seat if required in rough conditions
- Battery operated only
- Batteries housed inside a vented container able to contain the entire contents of batteries if damage occurs.

The powered mobility device must only be operated by the registered Operator of the device, with a doctor's certificate stating that due to severe impairment they have a need to use the device for assisted travel.

The Operator must also be capable of safely operating the device.
