Discover the best of North Stradbroke Island
North Stradbroke Island
Where summer never ends...

Welcome to North Stradbroke Island (Minjerribah), home of the Quandamooka people. Known as ‘Straddie’ by the locals, the island is one of Australia’s natural treasures and best of all, is right on Brisbane’s doorstep.

It’s the world’s second largest sand island and is only an hour’s drive from Brisbane and 90 minutes from the Gold Coast. Access from Cleveland on the mainland is by Stradbroke Ferries vehicle ferry (45 minutes) or water taxi (25 minutes).

North Stradbroke Island is blessed with white sandy beaches, magnificent inland lakes, hidden waterways and scenic walks. One of the most spectacular, the breathtaking North Gorge walk, is a favourite with locals and visitors alike. It’s an amazing vantage point to spot wildlife with dolphins, turtles and manta rays often sighted from the headlands.

It also attracts hundreds of whale watchers who visit each year between June and November to watch the majestic humpback whales on their annual migration.

You only need to spend a few hours on Straddie to slip into the relaxed pace of island life. Whatever your holiday desire, Straddie has it all.

For the more adventurous, activities include bush walking, four wheel driving, sand boarding, kayaking and snorkelling just to name a few. The island is also well known for its surfing and scuba diving, with dive trips departing from the beach.

Those wanting to chill out can head to a day spa or unwind with yoga on the beach. Straddie’s beautiful beaches are ideal for a refreshing dip or a long walk. On the weekend, browse the colourful markets (see events page for dates) or enjoy a leisurely meal in the cafés and restaurants around the island.

You might even rediscover some of the simple pleasures of a real beach holiday – set up the wickets on the sand for a game of cricket, or toss a frisbee near the waves. Enjoy an ice cream while you watch a pod of dolphins at play, or barbecue some seafood caught by the local fishermen.

The island offers a range of accommodation to suit all tastes and budgets. Choose from resorts to backpackers and
Getting Here

Car from Brisbane
Follow the signs on Old Cleveland Road through to Cleveland (30 minutes). The water taxi and vehicle ferries depart from Toondah Harbour, Emmett Drive, Cleveland.

Bus / Rail from Brisbane
Take the train to Cleveland from Central or Roma Street Stations. Regular buses depart Cleveland Station for a short five-minute trip to Toondah Harbour where you can catch the water taxi.

Car from the Gold Coast
Travel north along the Pacific Highway and take the Cleveland Exit No. 30 onto Cleveland/Beenleigh Redland Bay Road and follow the signs to Cleveland.

Bus / Rail from the Gold Coast
Buses depart from the Surfers Paradise bus terminal for the Brisbane Transit Centre. Catch the train from the Transit Centre to Cleveland. Regular buses depart Cleveland Station for Toondah Harbour where you can catch a water taxi.

Car from the Sunshine Coast or Brisbane Airport
Head south along the Gateway Motorway and over the Gateway Toll Bridge. Turn left at exit 97 onto Old Cleveland Road (approximately 5km) from the bridge and follow the signs to Cleveland.

General Information

**Transport**
North Stradbroke Island is easily accessible by Stradbroke Ferries water taxi or vehicle ferry, with regular services operating from Cleveland. Once on the island there are a range of transport options including a taxi service and a bus system operating between Dunwich, Amity Point and Point Lookout. The local bus service is cash only.

**Roads & Driving**
All of the roads linking the townships on the island are bitumen sealed roads, so 4WDing is recreational only. Obtain a yearly 4WD permit through Minjerribah Camping by visiting minjerribahcamping.com.au. North Stradbroke Island is home to an abundance of native animals, so it’s important that you drive cautiously, especially around dawn and dusk!

**Car Hire**
If you are hiring a car on the mainland and plan to take it to the island, ensure you check out the insurance conditions with the car hire company.

**Climate**
North Stradbroke Island boasts a subtropical climate with moderate temperatures and sunshine almost all year round. Temperatures range from an average of 20 degrees Celsius in July to an average of 28 degrees in February.

**Services & Facilities**
Most major services and facilities are located within the townships on North Stradbroke Island, including fuel stations, supermarkets, ATMs, post offices, medical centres, retail shops, hotels and restaurants. There is no LPG gas for cars available on the island.

**Camping and Caravan Parks**
There are a number of campsites and caravan parks on the island. Please note that a permit is required to camp, and some campsites are accessible by 4WD only. Visit minjerribahcamping.com.au for more information and bookings.

**ATM Locations**
- **Point Lookout** Foodworks, Bowls Club, Stradbroke Hotel.
- **Dunwich** Foodworks, Little Ship Club, RSL, All Sports Club, Ballow Road near bakery.
- **Amity Point** Community Club.

Day Tours

**Diving Trips**
Duration: 3.5 hours
Operates: Twice Daily (weather dependant)
Times: 7.30am & 12.30pm
Experience Straddie’s deep blue first hand. Dive sites are situated around large exposed and unexposed rocks and reefs just off Point Lookout.

**Surfing Lessons**
Duration: 1.5 hours
Operates: On request
Times: On request (tide & weather dependant)
Straddie offers some of the best surfing conditions. Lessons can be tailored to any skill level, and are suitable for ages 5 to 70. All equipment and safety gear provided.

**Stand Up Paddle Boarding**
Duration: 1.5 hours
Operates: On request
Times: On request (tide & weather dependant)
Safe and fun for the whole family, the experienced instructors will show you around the island, with the chance to see turtles, dolphins and other marine animals.

**Stand Up Paddle Boarding**
Duration: 1.5 hours
Operates: On request
Times: On request (tide & weather dependant)
Safe and fun for the whole family, the experienced instructors will show you around the island, with the chance to see turtles, dolphins and other marine animals.

**Kayaking Adventures**
Duration: 2 – 3 hours
Operates: Subject to weather conditions
Times: 10am & 12 pm – subject to change
Enjoy the discovery of some of Straddle’s hidden secrets, including ships wrecks, Shag Rock, blue water, beautiful beaches, lakes and creeks.

**Goompi Trail**
Duration: 1.5 hours
Operates: On request (departs Dunwich)
Times: 9.30am – 11.00am
This informative walking tour explores the shores of Goompi (meaning Dunwich). Learn about bush medicines, local foods, how artefacts are made and how to throw a hand-crafted spear!

**Straddie 4WD Eco Tour**
Duration: Half day and Full day
Operates: Daily
Times: 9.20am from Dunwich
See Brown Lake and Blue Lake, dig for pippies, walk the North Gorge and try to spot a variety of marine life. BBQ lunch included. Half day tours available.

**Beach Fishing Tours**
Duration: 3 – 4 hours
Operates: On request
Times: On request (tide & weather dependant)
Join an experienced guide on a surf beach where the conditions are right, and try your luck at catching the night’s dinner!

**Sandboarding**
Duration: 1.5 hours
Operates: Daily
Times: 10am & 12 pm – subject to change
Held in the sand desert, start off on the smaller slopes to perfect your technique, then build up to the “A” grade slopes!

Dunwich

The quaint township of Dunwich, traditionally known as “Goompi”, is the first glimpse most visitors have of North Stradbroke Island, when arriving by either a Stradbroke Ferries vehicle ferry or water taxi.

Did you know?

In 1886 the Legislative Assembly recommended that a Benevolent Institution be established at Dunwich as a home for the old, infirm, disabled, inebriates and, for a short time, lepers. The women’s accommodation overlooking the swimming enclosure was isolated from the male dormitories. In 1947 the Dunwich Benevolent Asylum was officially closed after the inmates were moved to Eventide Home, Sandgate.

This picturesque harbour town on the western side of the island is rich with Aboriginal and European culture and history. If you’re interested in the island’s history, don’t go past the North Stradbroke Island Historical Museum or Dunwich cemetery. Guided walks from the museum’s knowledgeable staff can be arranged, or you can pick up a copy of the Heritage Trail from a number of outlets on the island or at the ferry terminal.

Just a short 5 kilometre drive East from Dunwich along Alfred Martin Way is Brown Lake (Bummiera) which gets its name from the surrounding tea trees and reeds. With BBQs, safe swimming areas, a playground and picnic tables, it’s a great place to rest, relax and soak in the beauty of one of Straddie’s many natural wonders.

Just a little further up the road is Blue Lake (Karboora) which is about a 2.5 kilometre bush walk from the designated carpark. Blue Lake’s stunning beauty is well worth the hike!

Another location for nature lovers to stop off at on the drive to Point Lookout is Myora Springs (Capembah), a freshwater spring that has been running for thousands of years.

Dunwich is also a handy place to pick up the essentials for your holiday, as it has a fruit shop, bakery, butchery, general

Bring a bike, cycle to Brown Lake (Bummiera) and enjoy a swim.

store and bottle shop. You can even buy tents, towels, fishing rods, games and much more from the local sports store if you’ve left some things behind! There are a number of quaint cafés and restaurants in the township, some with amazing views over Moreton Bay.

Whether you want to fish from the jetty, swim at one of the island lakes or in the swimming enclosure close to the ferry terminal, enjoy a bayside lunch, visit an art gallery or play a round of golf, Dunwich has a memorable character and is the perfect introduction to your stay on North Stradbroke Island.

Adventures

Whether you’d prefer to take the car or discover the island by foot, Straddie is the perfect destination for a day trip. Despite being so close to Brisbane, North Stradbroke Island offers a whole new world to explore.

Your trip starts from the bayside town of Cleveland, located only one hour from the Gold Coast and 45 minutes from the Brisbane CBD and Airport. The trip on the Stradbroke Ferries vehicle ferry takes approximately 50 minutes, and you can enjoy a coffee or light meal in the onboard licensed café. You might even spot a dolphin, turtle or a whale in the bay during the crossing. If you are taking the Stradbroke Ferries water taxi, the trip is a quick 25 minutes.

What to do if you’re on foot

Walk around Dunwich – visit the local gallery, café or bakery, go for a swim in the swimming enclosure

Hire a push bike in Dunwich and take a 5 kilometre ride to Brown Lake for a refreshing swim

Visit the North Stradbroke Island Historical Museum in Dunwich

Catch the bus to Point Lookout and do the North Gorge walk

Have lunch at a café or restaurant, or get some takeaway fish n’ chips or sushi

Go for a swim at one of the patrolled beaches of Cylinder or Main

Watch the whales go by from the Point Lookout headland (June to November)

Indulge in a delicious gelato while kangaroo spotting on the headlands

Extra things you can do if you have a car

Drive to Point Lookout and explore the magnificent headlands, rock pools and sandy white beaches

Enjoy a game of bare foot bowls at the Bowls Club at Point Lookout

Drive to Amity Point – have a coffee at Amity, or go for a swim in the swimming enclosure

Drive to the North Stradbroke Island Golf Club – have a few rounds of golf, play putt putt or go wildlife spotting

Drive to the Blue Lake National Park car park – it’s a 5 kilometre round trip by foot but well worth the effort

Drive to Brown Lake – have a picnic lunch, go for a swim or explore one of the walking tracks.

Picnic Spots

With its sunny climate and friendly, tranquil atmosphere, North Stradbroke Island is the perfect place to relax and enjoy a BBQ or family picnic. There are plenty of beautiful spots to choose from, so why not pack your lunch or pick up something at one of the local cafés, convenience stores, fruit shop or bakery, and soak up some sun?

Point Lookout

Point Lookout Oval, East Coast Road:

Amity Point

Amity Point’s laid-back, fishing village atmosphere is guaranteed to make you relax and sink into island time.

Located on the north-western tip of the island and only a 15 minute drive from Dunwich, this town delights the casual or avid fisherman, seafood lover or wildlife enthusiast.

Amity’s appeal begins with its relaxing ambience, sandy beaches, shaded shores and easy access to Moreton Bay. There are no surf beaches at Amity, which makes it perfect for fishing and snorkelling, and the large swimming enclosure provides a safe place to swim.

For the wildlife enthusiast, Amity’s “locals” include friendly pelicans, cute koalas and wild dolphins. Koalas can often be spotted sleeping in the gum trees surrounding the swimming enclosure and local streets, and you might get a visit from a wild dolphin if you’re fishing from the jetty at dawn or dusk.

Dreaming of a place you can buy fresh seafood straight from the trawler? Any foodie would be amazed by the quality seafood available from the trawlers that tie up at the jetty to offload the night’s catch of fresh prawns, crabs and fish. Look out for a roadside sign indicating where you can buy some of the day’s catch.

Accommodation ranges from modern, beachfront holiday houses to cabins, cottages and units, or you can bring your caravan or tent to the local campgrounds which are only a short
Enjoy
Pick up some trawler-fresh seafood, set up a picnic and watch the sun set over Moreton Bay.

See
See if you can take a selfie with a local pelican or koala, or you might even spot a dolphin at dawn or dusk.

Explore
Take a relaxing walk along Flinders Beach.

Local’s Say
Throw in a line from the jetty to catch the night’s dinner.

walk to the water’s edge. Access to Flinders Beach camping area is via Sovereign Road, 4WD beach permits must be obtained prior to driving on the beach.

Even though Amity is Straddie’s smallest town, the local café, Community Club and general store are frequented by locals and guests staying in the beachside accommodation.

The quiet, laidback ambience of Amity Point gives way to seafood picnics, throwing in a line or going for a relaxing swim, and it’s the perfect place to unwind and get back to basics.

- Superb absolute waterfront location
- Private jetty for fishing and watching dolphins
- Pets welcome in some cabins
- Resident koala and plentiful birdlife
- Outdoor kitchen/BBQ on grassy waterfront
- Simple self-contained and tree-shaded cabins

Remember when holidays at the seaside were simple and fun? When Dad could fish, Mum could relax with a book and the kids could walk barefoot to the shop for an iceblock or to the beach to play cricket? When the family actually talked, laughed and played games together.

Of course the family dog came along too in those days. Recapture the simple pleasures at Sea Shanties, Amity Point and bring the dog too.

17 Runnymede Road, Capalaba (located at IndigiScapes)
1300 667 386
VisitorCentre@redland.qld.gov.au | redland.qld.gov.au/visitorinfo

Open 10am-4pm daily (closed Good Friday, Christmas Day and open from 12pm ANZAC Day)
**Point Lookout**

Point Lookout (Mooloomba, meaning the place of rocks) has a natural beauty that is sure to take your breath away.

Situated at the north-eastern tip of the island, this coastal township is a series of beaches and headlands which can be easily explored by foot. Don’t miss the stunning beauty of the North Gorge walk with its breathtaking views across the Pacific Ocean. The walk is the perfect year-round vantage point for spotting turtles, dolphins and manta rays, and between June and November, one of the best spots on the East Coast to watch the annual migration of the majestic humpback whales.

When you’re trying to find the perfect beach for swimming, exploring or relaxing, Point Lookout absolutely spoils you for choice. There are two beaches that are patrolled by lifeguards daily – Cylinder and Main Beach – both offering superb swimming and surfing.

To every foodie’s delight, there is an impressive selection of eateries, restaurants and cafés to choose from. Whether its gelati on the beach, fish n’ chips with a view or an à la carte dining experience, Point Lookout has plenty of tasty options.

For those who want to take something home, there’s a range of gift and souvenir shops at Point Lookout with an eclectic collection of keepsakes and handmade wares. You can also pick up your everyday items from the local newsagent, fruit shop, bakery, pharmacy and convenience store.

The more adventurous can fill the day with a 4WD tour or go diving, snorkelling, sand boarding, surfing or even stand up paddle boarding! If you don’t have your own gear, there are...

---

**Did you know?**

Despite an 1825 recommendation to build a lighthouse at Point Lookout, and many shipping disasters on South Passage Bar, a light was not constructed until 1932. When electricity replaced acetylene in 1988 to operate the light, the outside galvanised iron wall and steel ladder were removed. The dome and light prism were also removed.
Enjoy
Start your day with beach yoga – look for the signboards — or catch a wave with one of the locals.

See
Do the North Gorge walk and you might spot whales, dolphins, turtles and manta rays.

Explore
Watch the sun or moon rise from one of the east facing headlands, but don’t forget to bring your camera!

Local’s Say
Visit the rock pools at Deadman’s Beach on an outgoing tide to find some interesting critters of the sea.

plenty of places to hire equipment or you can book a tour with an experienced instructor or guide.

Point Lookout also offers an expansive range of accommodation options catering for all needs and budgets. Choose from resorts, a stylish hotel, holiday houses and units or backpacker hostels and cabins. There are also several campgrounds within walking distance of beaches and most facilities.

Relax, dine, swim, shop or explore beautiful Point Lookout, the little coastal village that has some of the most spectacular ocean views in the world, without the crowds.

Camps & Excursions

North Stradbroke Island is the second largest sand island in the world and one of Australia’s natural treasures. With kilometres of white sandy beaches and an incredible diversity of experiences to offer, North Stradbroke Island is the perfect location for school camps or excursions.

A wide variety of activities, both educational and adventure based, are available for all group sizes and can be incorporated into any school itinerary.

The island has a range of accommodation options including camping, dorm rooms and units. Catering options are plentiful and varied and can be served onsite at your accommodation or pre packed for your day excursions.

Whatever the age group, budget, group size or educational focus, North Stradbroke Island can cater for all your needs.

**Culture**
The island’s rich Aboriginal history and culture makes it an ideal destination for students to learn about and understand the traditions of Australia’s indigenous people. There are activities suitable for all age groups, including walking tours, talks, dance and didgeridoo workshops or the more hands-on boomerang painting and spear throwing.

**Environment**
North Stradbroke Island’s incredibly unique and interesting environment makes it the perfect place to study biology, geography and earth sciences.

**History**
Studies have shown that the Quandamooka people have been living on the island for at least 21,000 years. The first recorded contact between the Europeans and Aborigines occurred in 1803 when Matthew Flinders was on his way to Sydney. The island’s museum offers a fascinating insight into all that is known about the history of North Stradbroke Island.

**Adventure**
There are a number of fun and exciting tours and activities on the island including sand boarding, surfing lessons, stand up paddle boarding, kayaking, kite making and fishing, to name a few!

Weddings

Imagine a dream-come-true wedding where you can choose from a backdrop of rugged headlands, perfect white sandy beaches or stunning seascape views.

North Stradbroke Island is that perfect wedding destination, with the choice of several picturesque locations for your ceremony and a diverse range of venues to suit all tastes and styles for your reception. The serenity and harmony of the island’s natural environment will ensure that your special day will be remembered and treasured for years to come.

The breathtaking beauty of the island makes it a photographer’s dream, offering not only beaches and headlands but also lush, natural bushland to capture a vast array of special moments.

From catering and decorating to celebrants and photographers, everything is available on the island. North Stradbroke Island boasts some incredibly creative and talented locals who would be more than happy to help you with as much or as little of your special day as you would like. From an intimate marquee under the stars to a venue with panoramic views of the ocean, the island is the perfect destination for friends and family to gather and celebrate.

When it comes to your reception you can choose from a lavish 3 course meal, a seafood buffet or cocktail platters and canapés, all provided by the island’s experienced local chefs. Straddie is also home to some gifted musicians to entertain you and your guests.

Easily accessible from Brisbane, North Stradbroke Island is an unspoiled destination for your special day, with the added bonus of a sub-tropical climate and sunny skies most of the year.

An island wedding is the perfect way to spend more time with those nearest and dearest to you. Why not discover North Stradbroke Island over a few days or even a week by staying on and enjoying the relaxed island atmosphere?

Your day, your way
Conferences

North Stradbroke Island offers the perfect destination for conferences, business seminars and retreats.

On Straddie you can escape from the office to the natural beauty and isolation of this island paradise, while still having plenty to see and do.

The island is easily accessible by both passenger and vehicle ferry and offers a variety of conference venues suitable for both small and large gatherings.

There are a number of locations suitable for meetings at Point Lookout, and even a few at Amity Point and Dunwich. Whether you are looking for something on a budget or an all-inclusive retreat, there are a number of options that can be tailored to your needs.

The island can cater for up to 300 delegates, and best of all, you can choose accommodation within easy walking distance of your conference location. There are options to suit everyone, from hotel-style rooms to fully self-contained apartments and holiday rentals, some with onsite conference facilities.

There are a variety of different team building activities ranging from adventurous to indulgent. You may want to go kayaking, sand boarding and surfing, or treat your delegates to a day spa treatment. For something a little different, you can even book in an early morning beach yoga session, an Aboriginal cultural experience or a guided tour.

Catering packages can also be tailored for any group, regardless of size or dietary requirements. Meal options on the island are exciting and plentiful, using only the best seasonal produce or seafood fresh from the local trawlers. Your delegates can enjoy everything from buffet-style meals to pre-packed picnics, or they can even have it delivered to their door!
The oysters are harvested fresh from local oyster beds and the trawlers deliver their catch daily so you are assured of eating the freshest seafood available. Local seafood is a regular feature on the menu, or you might prefer to grab some fresh prawns and ice cold beers to enjoy outdoors.

Seafood aside, there’s plenty more to tempt all palates, and it’s available in an equally diverse array of settings ranging from casual cafés to à la carte restaurants.

Begin your day with a scrumptious breakfast. There are a variety of quaint cafés at Point Lookout, Amity Point and Dunwich, offering tasty treats from tempting menus.

Throughout the day keep your eye out for selections from the hand painted signboards outside many popular eating places offering light, home cooked delights.

Options include gourmet café-style meals served in a shady garden courtyard or overlooking sweeping views of the Pacific Ocean. Maybe a takeaway hamburger or freshly-made roll will hit the spot after a morning spent surfing.

The island also has a number of clubs serving up hearty bistro-style meals. Some clubs feature special dining nights including great value ‘all you can eat’ buffets or home cooked roast dinners.

If you’re looking for something a bit more formal, the island is also home to a selection of restaurants. Relax over a cocktail before dinner, choose from the à la carte menu and treat yourself to a special night out – island style. Options include seafood, modern Australian and Asian cuisine.

If you want to make the most of the island’s natural beauty, you may choose to round up the troops and enjoy fish and chips or locally made pizza in one of the parks overlooking the bay and watch the sun set over the mainland.

From scrambled eggs to coffee and cake, delicious gelati to seafood platters, or a freshly grilled pub steak to a pie from the bakery – the choice is entirely yours.

Experiences

**Surfing**
The waves that roll into Straddie’s beaches have created a strong surfing culture on the island, and with it a number of internationally acclaimed surfers. Main Beach and Cylinder Beach offer the best surf conditions, and are very popular with body surfers, body boarders and board riders.

**4WD Guided Tours**
Local tour operators offer fully-guided 4WD tours which are an ideal way to explore off the beaten track!

**Beach Yoga**
Beach yoga is generally available in the early mornings. Run by local teachers, it’s a great way to relax and rejuvenate. Please check the noticeboards at the local stores for dates and times.

**Markets**
The popular Point Lookout Sunday markets at the community hall are the best place to pick up some of the island’s fantastic local products, including unique art and crafts, homemade jams or organic honey. Check the events page for dates.

**Scuba Diving & Snorkelling**
The island’s 5 star PADI dive centre offers daily scuba dive and snorkel trips. The most popular dive sites are Flat Rock, Boat Rock, Manta Ray Bommie and Shag Rock. All levels of divers are catered for.

**More Island Adventures**
If you are still looking for an adventure, consider stand up paddle boarding, kayaking, sandboarding or surfing lesson.

- For the time poor we offer Half Day Tours as well  
- Corporate, hens, bucks & social groups welcome  
- Customise your very own itinerary
The knowledge of the Quandamooka (Moreton Bay) people has been passed down through many generations, and with such a close affinity with the land and sea, they have learned to read the signs in nature that made it possible to live on the land and respect the environment.

An important component for their diet was the shellfish, Eugarie (donax deltoids), found on the ocean beach and also the western beaches. Discarded mollusc shells formed large middens (a shell heap) on the frontal dunes and foreshores.

The Quandamooka people’s desire is that future generations will value their stories and come to understand and appreciate the connection they have to the islands and waterways of Moreton Bay.

**Signs in Nature**

› When the wattles are in flower it signals the beginning of the tailor season

› The Quandamooka people used the sea eagle known as Merriginpah when hunting for schools of fish. The bird flying over the water would show them where the fish were located and the people could then prepare for the catch

› When the lorikeets are plentiful it is a good season for mullet

› When the Hop Bush flowers, oysters are at their best

**Useful plants and medicines**

› Talwalpin (native cottonwood) had the inner bark twisted into twine and used to make nets, fishing line and string. The wood was also used for firesticks and to make shields

› Nyungair (freshwater reed) was collected from swamps on the inside of the island to make baskets

› Dakkabin (grass tree) resin was useful as it sets very hard and clear and could be used to strengthen and decorate canoes, tools and weapons

› Native honey was used as an ointment for open sores

› Dugong oil was taken every day as a medicine for general good health and well being

› Ash from the fires has many uses for healing

*stradbrokeholidays.com.au*
Dunwich Cemetery
The historic Dunwich Cemetery is one of the oldest cemeteries in Queensland. The oldest graves date back to 1850, the first year of the Dunwich Quarantine Station, when the ship “Emigrant” arrived with a typhus epidemic aboard. This resulted in the deaths of Dr Ballow, Dr Mitchell, and 26 immigrants. It is estimated that there are more than 9000 graves in the cemetery. Many graves are unmarked.

Wreck of the “Rufus King”
The “Rufus King” was a 10,000 ton American Liberty Ship that floundered off North Stradbroke Island in July 1942. During poor weather, the ship ran aground on the treacherous South Passage Bar where it broke in two. A major operation was launched to salvage American Army wartime equipment. The bow section of the ship was sealed and towed to New Guinea where it served as a marine workshop.

Wreck of the Hospital Ship “Centaur”
At 4.10am on the 14th May 1943, the Australian Hospital Ship “Centaur”, with 332 people on board was torpedoed by a Japanese submarine about 23 miles east of Point Lookout. The resulting explosion was so great that the “Centaur” sank within minutes, taking with it the lives of 268 crew, nurses, medical orderlies and ambulance men. Residents at Point Lookout heard the explosion and saw a bright flash out to sea.

The Earl of Stradbroke
In 1827, under the command of Captain Rous, the “Rainbow” was the first ship of war to enter Moreton Bay. In recognition of Rous’s survey work, Stradbroke Island was named after Rous’s father, the first Earl of Stradbroke, and Dunwich after Captains Rous’s elder brother, Viscount Dunwich. In 1988 the Sixth Earl of Stradbroke, with his wife, Countess Rosie, attended the first official opening of North Stradbroke Island Historical Museum.

Vehicle Ferries
The “Karboora” was the first vehicular barge to run to Dunwich from Redland Bay. Vehicles were unloaded on to the beach near the Dunwich swimming enclosure.

In 1964 Stradbroke Ferries was founded by Mr Frank Dobias and Mr Geoff Ford, who identified the need for regular vehicle ferry transport to North Stradbroke Island. The company’s first barge the MV Myora, travelled from Redland Bay to Dunwich. Stradbroke Ferries is now owned by SeaLink and continues to operate vehicle ferries to North Stradbroke and the Southern Moreton Bay Islands and a water taxi Cleveland to Dunwich. When Hayles Bros built a kiosk and jetty north of the Swing Basin at Amity in 1935, they commenced a launch service from North Quay Brisbane. “M.V. Mirimar”, a 96 foot vessel, was the first launch on the Stradbroke run.
Beaches & Lakes

Main Beach
Main Beach stretches for 32 kilometres of unspoilt sand, dunes and surf. It is popular with board riders and bodysurfers who enjoy the big swells. The waves are large and powerful and the views are spectacular. The headland is the best vantage point for watching the surfing action and spotting dolphins.

It is also a favourite beach for fishermen. Main Beach is best during northerly winds, when snorkelling and scuba diving are suitable along the north wall. Avoid Main Beach during southeast wind conditions and always be aware of strong rips and side currents.

- The beach is only patrolled near the Surf Club at the northern end.
- Not allowed in the swimming reserve. Dogs are allowed 10 kilometres south of the access track to Jumpinpin.
- Access to Main Beach with a Four Wheel Drive is from George Nothling Drive, Point Lookout or the Causeway entry off Alfred Martin Way.

Flinders Beach
Flinders Beach is 4.6 kilometres of beach situated between Amity Point and Point Lookout. Flinders Beach has foreshore camping and is only accessible by 4WD from Amity Point and Point Lookout. Four Wheel Drive permits must be purchased prior to driving on the beach.

- No
- Yes
- Yes

Adder Rock Beach – Point Lookout
Adder Rock Beach is accessed through a 4WD track next to Adder Rock campground. This beach provides an attractive spot for swimming, and is popular with campers and fishermen. However, there is a side sweep which may carry you parallel to the beach and it is not patrolled.

- No*
- No
- No

*except during peak school holidays and Easter

Deadman’s & Frenchman’s Beach – Point Lookout
Deadman’s Beach and Frenchman’s Beach are secluded spots, nestled between North Gorge and Cylinder Beach. These beaches are great places to explore the rock pools where you can see small fish, anemones, shells and crabs.

Access to Frenchman’s Beach is via the 233 stairs from East Coast Road, Point Lookout. Access to Deadman’s Beach is by walking track from the carpark on top of Cylinder Beach Headland.

- No
- No
- No

Cylinder Beach – Point Lookout
Cylinder Beach is a picturesque cove between Cylinder and Home Beach Headlands. It is popular with families because it is easily accessible with a car park situated only metres from the beach. The waves at Cylinder are often smaller and therefore it is perfect for sun bathing and swimming during good weather conditions. Cylinder Beach is also a favourite with surfers when the conditions are right.

- Yes
- No
- No

Home Beach – Point Lookout
Home Beach is just over a kilometre of beach stretching from the Cylinder Beach Headland to Adder Rock and is a perfect spot for those relaxing strolls along the beach.

- No
- Yes
- No

Amity Point & Dunwich Foreshore Beaches
On the western side of the island, Amity Point and Dunwich offer sandy beaches and calm water for swimming and great fishing. Amity and Dunwich both have swimming enclosures.

- No
- No
- No

Blue Lake & Eight Mile Swamp
Blue Lake (Karboora) and Eighteen Mile Swamp are freshwater lakes fed from a vast underground aquifer. Blue Lake National Park’s Aboriginal name is Karboora, meaning ‘silent pool’ and offers a quiet haven for visitors who come to appreciate its natural beauty. The lake is accessible by foot only, and is a 5 kilometre round trip walk. Make sure you remember to take comfortable shoes, a water bottle and a hat as there are no facilities at Blue Lake.

Keyholes
The Keyholes are a freshwater system of rehabilitated mining lakes and lagoons which stretch over 4.5 kilometres. These lakes are now home to the island’s massive open air aviary of more than 250 species of native birds.

Brown Lake
Brown Lake (Bummiera) gets its name from the colour of the water. The clear ‘tea’ colour comes from the surrounding tea trees and reeds. The natural bushland surrounding the lake is home to many delicate wildflowers, including small ground orchids. Brown Lake is also special because it is a “perched” lake, meaning that it sits above the water table in a depression where the accumulated vegetation forms an impervious layer to hold water.

Brown Lake is easily accessible by conventional vehicle and has amenities such as picnic tables, wood-fired BBQs and a composting toilet.
Surf Safety

Be Aware of Rips
A rip is a strong current running out to sea on a surf beach. It can easily take swimmers from shallow waters up to several metres offshore in a short period of time.

Some important points to remember are:
1. Swim only at beaches patrolled by lifesavers/lifeguards and obey all instructions.
2. The red and yellow flags indicate the safest place to swim – do not swim outside the flags where rips may occur.
3. Take note of what flags are flying and be aware of the beach conditions.
4. A RED flag on its own indicates EXTREME DANGER – NEVER enter the water on a red flag.
5. If you do get caught in a rip – remain calm, raise one arm in the air, float and wait for help to arrive – DON’T PANIC.
6. To escape a rip, swim diagonally across the rip, don’t try and swim against it.
7. If you are unsure of the conditions, ask a lifesaver or lifeguard – they are there to help you.

Beach Patrol

Main Beach / Cylinder Beach
Monday–Sunday: 8am–5pm
Dec / Jan School Holidays: 8am–6pm
Easter & Sep School Holidays: 8am–5pm

Adder Rock-Flinders Beach
Dec / Jan School Holidays: 8am–6pm
Easter & Sep School Holidays: 8am–5pm
**Marine Life**

North Stradbroke Island is a fantastic location for spotting and observing marine life. From the ferry crossing to the North Gorge walk, the visitor to Straddie can see dolphins, whales, dugongs, manta rays and turtles. The best viewing points are located along the headlands and are all within walking distance of accommodation properties at both Amity Point and Point Lookout.

---

**Dolphins**

The waters surrounding North Stradbroke Island are home to both bottlenose and Indo-Pacific humpback dolphins and are visited by common and spinner dolphins. The area provides an abundance of bountiful foraging habitats for dolphins such as seagrass beds, mudflats, reefs and mangroves.

Point Lookout has a large population of resident bottlenose dolphins which varies seasonally between 700–1000 individuals. They can be seen feeding, sleeping and riding the waves in Frenchman’s Bay and off Cylinder Beach. This is the largest reported population of bottlenose dolphins in the smallest area in the world. Norm’s Seat cliff-top observation point on the North Gorge walk at Point Lookout offers an excellent view of bottlenose and Indo-Pacific humpback dolphins playing and surfing the waves with the board riders.

---

**Dugongs**

Moreton Bay is a well-known marine park and is one of the few places in the world where large numbers of dugongs can be found. These captivating creatures inhabit shallow tropical waters and are listed as vulnerable to extinction by the World Conservation Union. There are believed to be 600 to 700 dugongs who call the Moreton Bay area home. Although very shy, these mammals can be seen around Amity Point or during the crossing to the island from the mainland.

---

**Turtles**

Green and loggerhead marine turtles inhabit the sub-tropical waters surrounding North Stradbroke Island. They are long-living, taking up to 50 years to reach maturity. Turtles have separate locations for breeding and feeding and thus some turtles can travel from as far away as Papua New Guinea.
and New Caledonia to nest on Stradbroke Island. Female turtles come ashore between December and February to lay their eggs, something they can do up to four times a season! Frenchman’s and Deadman’s beaches are usually the preferred location for turtle nesting.

Moreton Bay is the only place in the world where turtles and dugongs still live on the doorstep of a major city.

**Manta Rays**
The manta ray is a graceful and acrobatic animal and is the largest of the rays. While closely related to the shark, the manta ray is harmless and usually relaxed around divers, often allowing an up close and personal experience! A noted site for divers and snorkellers is Manta Ray Bommie, just off Point Lookout, which is one of the best places to dive with manta rays in Brisbane and is mentioned by Queensland Tourism as one of Queensland’s top dive sites! Groups of three to four manta rays can usually be spotted during the summer months, when numerous rays converge on Manta Ray Bommie to be cleaned by smaller fish.
Whale Watching

The North Gorge headland at Point Lookout is considered one of the best land-based whale watching sites in the world, not only because it is right next to the “whale highway”, but also because it is only 35 metres above sea level, making it a prime viewing platform.

The whales travel north past the headland early in the season as they make their way to the calving grounds around the Whitsundays and Hervey Bay. As the year moves on, they return south to their home in the Antarctic, this time with their new babies in tow.

Whale watchers marvel as hundreds of these majestic creatures swim by, often performing for their audience as they throw their massive bodies from the water in spectacular breaches, or slam the water with powerful tail slaps and create water spouts with their “blows” as they surface.

---

Whale Watcher’s Guide

1. **The Blow**

   This is usually the first sign of whales in the distance or at close range and it appears above the surface of the water like a blast of steam. This occurs when a whale expels its breath through the blowholes on the top of its head. They release the air up to a speed of 450 kilometres an hour, that can also reach up to 5 metres in height making it visible from a distance of around 2 kilometres.

2. **Footprints**

   Whales leave a greasy film on the surface of the water – this slick area is known as a footprint. This mark is left from the flukes on the whale’s tail, from the downward stroke in their swimming motion.

3. **Breaching**

   This is the most spectacular manoeuvre. With two or three beats of its tail, the whale pushes itself into the air throwing itself backwards creating a tremendous slap and splash as its body hits the water.
4. **Spy Hopping**

Whales are very inquisitive creatures, and it is common for them to poke their heads vertically out of the water and have a good look around!

5. **Pectorial Fin Extension**

This move will create waves! The whale will wave their fins whilst lying on their back, slapping their fins onto the surface of the water.

6. **Tail Slap**

This move involves slapping the tail fluke down flat on the water – this can be heard for many kilometres and is a way of communicating position to other whales.

7. **Peduncle Slap**

The peduncle is the muscular part of the body nearest to the tail flukes. In this movement the tail is slapped in a sideways motion like a karate chop. It is believed to be a sure sign of aggression.

The peduncle is the muscular part of the body nearest to the tail flukes. In this movement the tail is slapped in a sideways motion like a karate chop. It is believed to be a sure sign of aggression.
Wildlife

More rare and vagrant species have been found here than any other terrestrial locality in Australia. Many of the island’s vertebrate animals are rare or uncommon species and populations are small, leading to genetic distinctness.

Birdlife

Look for seabirds such as crested terns, short-tailed shearwaters, pied cormorants, lesser frigate birds, Australasian gannets and noddys feeding in the waters around the headland.

The majestic white-bellied sea eagle, the whistling kite with its shrill call, and the distinctive rust brown and white Brahminy kite are a few of the birds-of-prey commonly seen gliding over the shoreline and headlands in search of small mammals, crabs and fish.

And of course, Australia’s iconic kookaburra with its distinctive laugh, might be found sitting on the balcony of your accommodation or near the island’s eateries.

Goannas

This magnificent lizard which grows up to a metre in length can often be seen on warm days basking happily in the sun. Their prey can include all manner of smaller reptiles, young birds, eggs, snakes and mammals. Meals are often eaten whole, thus the size of their meals may depend on the size of the animals.
Kangaroos and Wallabies
Grey kangaroos can sometimes be seen feeding on the grass around the North Gorge walk in the early morning and late afternoon. They are accustomed to seeing people and, if observed quietly, a range of their behaviours can be enjoyed at close quarters. Patience is needed to spot the rarer and extremely shy Golden Stradbroke Wallaby. This wallaby is a uniquely coloured variety of the swamp wallaby which only occurs on North and South Stradbroke Islands.

Koalas
North Stradbroke Island has its own population of koalas, found near the western swamps, Swan Bay area and around all of the townships. Koala habitat is protected and managed closely to ensure this unique population is preserved.

Other native animals
There are many other island vertebrate species that are rated as being biologically important. These include the agile wallaby, water mouse, the skink (anamalous truncates) and the “acid frogs”. Straddie is a wildlife wonderland!
From the rock wall and jetty located at Amity Point to Jumpinpin, the stretch of uninterrupted beach running from the southern tip of the island to Point Lookout, the fishing options are limitless. The 20 metre deep Rainbow Channel, situated off Amity Point, is ideal for tuna and mackerel, whereas foreshore fishing is available everywhere from Main Beach at Point Lookout to Flinders Beach just near Amity Point. Main Beach is also your best chance of catching your own bait including pipis and beach worms. There are also fishing charters available where all you have to bring is your hat and your camera.

Amity Point is bordered by the south passage bar and common catches are mackerel, long tail tuna, tailor, spotty and school mackerel, bonito and reef species. From the rocks area off Point Lookout catches can include snapper, sweetlip, yellow fin tuna, wahoo, marlin and sailfish.

North Stradbrooke Island offers an excellent fishing destination and has an incredible experience to offer everyone.

Fishing

Straddie offers plenty of places from which to cast a line or launch a boat. Whether you are an avid angler or a holiday fisherman, one of the hardest decisions you will have to make is just where to throw your line in.
Rock Fishing

Fishing, especially rock fishing, can be dangerous. Follow these basic safety tips at all times when rock fishing:

**Never fish by yourself.** Fish in a group of at least three within sight of each other. If someone is washed in, one person can stay and help while the other alerts emergency services (dial 000). Mobile phone users can also dial 112 to access emergency services.

**Inform others of your plans.** Always let friends or family know where you are going and when you will be back.

**Wear light clothing.** Light clothing such as shorts and a spray jacket will let you swim easily if you are washed in. Jumpers may be heavy and difficult to take off.

**Wear appropriate footwear.** Cleats, sandals and sandshoes with non-slip soles suit different surfaces. Use the appropriate shoes for the conditions.

**Carry safety gear.** Wear a life jacket or buoyancy vest. Also bring something buoyant that can be easily thrown and held on to, to help you stay afloat. Carry ropes and torches.

**Never fish in exposed areas during rough or large seas.** Make sure you are aware of local weather, swell and tidal conditions before going fishing. Listen to weather forecasts or call the weather information line on 1900 937 107. Be aware that conditions may change dramatically in a short period of time.

**Observe first, fish later.** Spend some time (at least 30 minutes) watching your intended spot before fishing to get an idea of the conditions over a full swell / wave cycle. Wave conditions can get worse as the tide changes – you should know whether the tides are high or low and coming in or going out.

**Plan an escape route in case you are washed in.** Stay calm – if you are washed in, swim away from the rocks and look for a safe place to come ashore or stay afloat and wait for help to arrive.

**Stay alert.** Don’t ever turn your back on the sea – if the waves, weather or swell threaten your fishing spot then leave immediately.
Events 2018

March
- **Nudifest**
  - 16th – 18th
  - Manta Lodge YHA and Scuba Point Lookout
